

HACKATHON 1.0

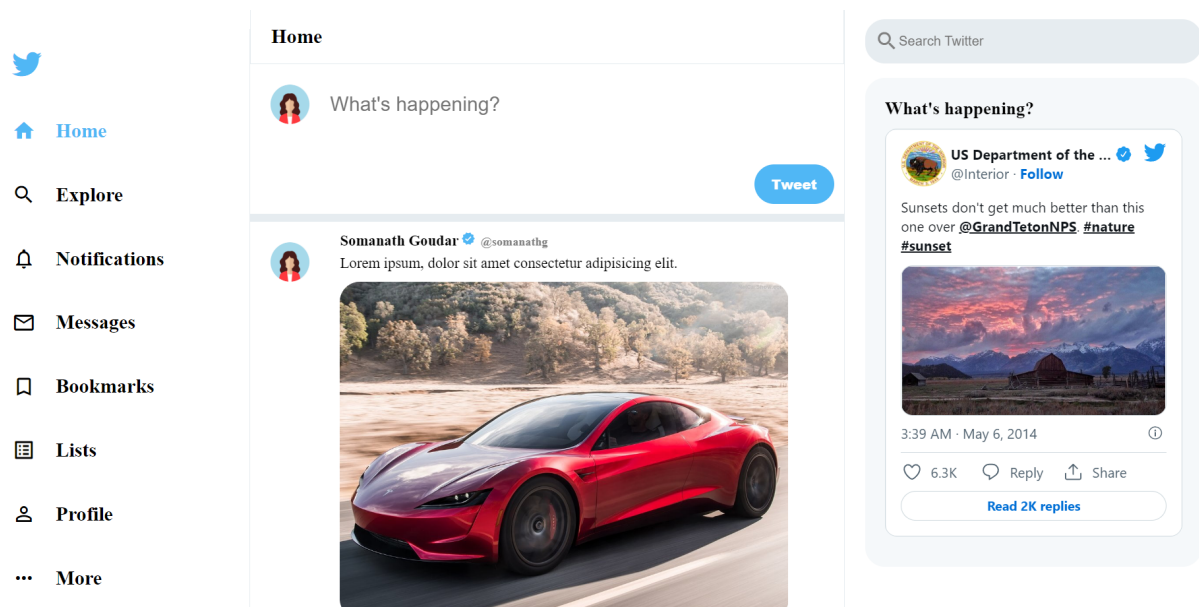

Testbook Skill Academy is extending the deadline of Hackathon 1.0 by considering the respected reasons to **25th August , 11:59PM** in which you are going to have three projects. **Learners have to choose and create any one project from the given list of projects.**

PROJECTS

1. TWITTER CLONE

❖ Key Points

- You have to make a layout of the website only.
- You can simply give '#' in the href attribute of Navbar Section
- Try to use the CSS that you have learnt till now.

2. YOUTUBE CLONE

❖ Key Points

- You have to make a layout of the website only.
- Try to get as close as the layout of the website. i.e., Clone each part very carefully.
- Try to use the CSS that you have learnt till now.

3. GMAIL CLONE

❖ Key Points

- You have to make a layout of the website only.
- Make the same layout of the form i.e The positioning of each HTML input element will be the same as it is shown in the project Sample.
- Try to use the CSS that you have learnt till now.

PROCESS OF SUBMISSION

You have to create a github repo named “Testbook_Hackathon1_projectName” and push your code in that repository and share the link by filling up this [Google Form](#).

IMPORTANT POINTS

- You have to submit your projects at this Do not try to copy the source code of the given projects as it may lead to your elimination from the hackathon.
- It is necessary to make the same clone of the project. Learners can use their custom images and font styles or some extra additional features.
- Try to maintain the code at the standard level as much as you can.
